

The image displays a 10x10 grid of 100 small dot patterns. Each pattern is a unique combination of 10 binary digits (0s and 1s). The patterns are arranged in a grid where each row contains 10 patterns and each column contains 10 patterns. The patterns are created by placing black dots on a white background, with the number of dots in each of the 10 positions corresponding to the binary value of that digit. The patterns are arranged in a grid where each row contains 10 patterns and each column contains 10 patterns. The patterns are created by placing black dots on a white background, with the number of dots in each of the 10 positions corresponding to the binary value of that digit.

ПРАЧЕ

БОТ

A 10x10 grid of black dots on a white background. The dots are arranged in a sparse, non-uniform pattern, suggesting a matrix or a network graph. The distribution of dots is as follows (row by row, from top to bottom):

- Row 1: 12 dots
- Row 2: 18 dots
- Row 3: 15 dots
- Row 4: 10 dots
- Row 5: 12 dots
- Row 6: 15 dots
- Row 7: 18 dots
- Row 8: 12 dots
- Row 9: 10 dots
- Row 10: 12 dots
